- 800x480 !
- 800Mhz !
- FM Modulator !
- RS232 port !

CTFPND-1 V2 is a multimedia GPS navigation system with a large 7" digital touchscreen of 800x480 resolution. The device is equipped with a very sensitive GPS module based on SiRFStar III 12 channels chipset. The device also has an integrated FM transmitter/modulator which will enable you to hear all sounds on your car speakers wirelessly.

Multimedia features allow to view movies and photos and to listen to music from the built-in speakers. The device supports all popular multimedia formats. As a memory expansion it uses SD/SDHC cards.

The CTFPND-1 V2 is a 7" Touchscreen PND on Windows CE 6.0 basis with integrated GPS receiver. Therefore the CTFPND-3 is the perfect platform for your telematics application. The extra-high native resolution of 800x480 enables a perfect viewing quality.

The integrated RS232 interface can be used for external devices or for a TMC receiver.

**Note :** This PND is an offer primarily meant for business and project customers. End consumers should only consider purchasing this device when they have appropriate experience.

#### Hardware

|           |                          |
|-----------|--------------------------|
| CPU       | Samsung S3C6410, 800 Mhz |
| Flash ROM | 128 MB                   |
| SDRAM     | 128 MB                   |
